The Company was founded in 1975 on the bases of experience and tradition of the actual General Manager. The F.A.E. S.p.A. Italy started with the production of building material and prefabrication of containers for the erection sites. The general acceptance of its products led F.A.E. S.p.A. Italy to a rapid growth, and in very short time in spreading its production line and its commercial department. F.A.E. S.p.A. Italy started

with the construction of standard module and light modular prefabricated buildings, used as Schools, holiday villages, offices, shops, dormitories, yard sectors. The production line of light prefabricated buildings includes also electrical system, hydraulic systems, air conditioning systems.

Supplies:

- Modular prefabricated buildings
- Schools, holiday villages, offices, shops, dormitories, yard sectors
- Structures used as: first aid, outpatient clinic and laboratories
